

models

it's time to
spend time
on you

ARE YOU A candidate?

You are a candidate for an **injectable relaxer** to smooth and flatten if you have • Horizontal creases on the forehead • Vertical creases between the eyes (the glabella area) • Wrinkles on the temple side of the eyes, the crow's feet • Wrinkles on the sides of the nose • Wrinkles on the upper lip, pursed lips • Vertical cords on the neck.

You are a candidate for **injectable dermal fillers** if you wish to fill in the wrinkled areas for immediate improvement. With a variety of fillers, some can increase the skin thickness, improving the appearance of folds and sunken areas. Some can create fuller lips and even stimulate your collagen growth to help reverse the aging process.

You are a candidate for professional **peels** if you wish to reduce fine lines, wrinkles, pore size, scars, diminish dead skin cells for tightness and resurfacing, and other signs of premature aging. The results will depend on the type of peel performed and that decision is determined by your provider during consultation. Some light or medium peels are done in a series or combinations for longer-lasting results or more impact.

You are a candidate for a **"light therapy"** treatment if you desire improvement of the appearance of Rosacea, sun induced pigmentation changes to the skin, age spots, improvement of acne scars, and the reduction of large pores. Light therapy stimulates production of collagen and aids in the reduction of fine lines. It reverses the signs of aging without any downtime.

You are a candidate for **microdermabrasion** if you are looking for a solution to dull, aging skin that doesn't include painful procedures or recovery time. It revitalizes your skin's appearance, promotes production of new cells in the deepest skin layers, cleanses pores, and stimulates collagen networking, all resulting in improved skin texture and appearance. Microdermabrasion uses a fine jet of crystals to gently and painlessly exfoliate your skin while vacuum suction removes the crystals with the dead skin cells. You're left with new, softer skin and a more even skin texture.

most popular non-ablative treatments

A "non-ablative" treatment is a process that keeps skin intact and rejuvenates without surgery. These procedures offer significant improvement with little to no-downtime!

Call now to schedule a consultation to discuss your desired results. Get started today and look wonderful by tomorrow!

A Beautiful Partnership

Today, plastic surgery advancements have allowed for virtually any enhancement to become a reality. Cosmetic improvements can lift our spirits and improve our appearance, leaving us feeling happier about ourselves and about life. Research has proven that this joy also flows into our business efforts, causing many to feel more confident and thus, become more successful. Men and women can benefit from the vast array of procedures available today. Patients are now seeking out the best surgical options available and are traveling from all over the world to find the ideal physician and technique. We are proud that our client base represents all corners of the world. Dr. Stevens and ~~Dr. Stoker~~ are committed to offering the best techniques medicine has to offer. See the bigger picture... See yourself as you wish. We are here to make that dream come true!

Want an Age-Reversing Make-Over for Fall?

Just schedule an appointment to see one of our PA's for any of our non-ablative treatments to achieve flawless skin for Fall. These procedures are quick, affordable, and will immediately take years off your appearance! Visit www.TechnologyOfBeauty.com to learn about all the in-office rejuvenating treatments we offer! "Instant Information...Instant Transformation!"

Cynosure Laser has Arrived! It treats all types of vascular lesions including facial and leg telangiectasias, spider veins, hemangiomas, Portwine Stains and other vascular malformations, Rosacea, and scars.

Skin Appeal

If you haven't tried our numerous choices in skin peels... It's time! We offer everything from light facial peels to deep peels, for men and women. For our lighter peels, please visit our Medical Day Spa and speak with an aesthetician. For more serious results, our PA's will perform procedures from light-based therapies to acid peels, which will take years off your appearance. We offer the full range of options for treatment, price points, and recovery periods. Our top two favorites: Cosmelan and Blue Peels! Never forget your most valuable asset, you and your beautiful healthy skin. Why not schedule an appointment today to learn more about your options! Because life is reflected in your skin!

Fun Facts...Did you know?

- The weight of a vial of Botox is equivalent to the weight of a roses's fragrance!
- One gram of hyaluronic acid can bind 3 liters of water!

Congratulations to...

Dr. Grant Stevens who recently returned from the Baltic Sea, where he was asked to lecture internationally to his colleagues about gummy bear breast implants and breast lifts.

Dear Charlie:

I love reading about your favorite skin care products. I have bought everything you've picked and suggested as "your favorite", and I am thrilled with every purchase. Now, will you share your favorite make-up product?

Signed,
Make-me-up, age 38

Dear Make-me-up,

My secret weapon in my make-up bag is a unique mascara imported from the Orient, called "Imju Paint on Lashes". It actually contains two separate and unique fibers that give such length to eyelashes – they truly look false...but in a beautiful way! The result is dreamy and sexy, clean and even. No messing with glue, goop, or false lashes...just use it on top of your regular mascara. Best of all, it washes off easily with soap and warm water. My entire staff also uses this product, and we can barely keep it on the shelves. We sell it for \$40.00, and I promise it is worth every penny. You'll look like a doll... Move over Betty Boop!
